CAREER SUMMARY

Results-oriented Programme Operations and Knowledge Management professional with 5+ years of combined public sector and international development experience. Proven track record in managing end-to-end grant lifecycle workflows, institutionalizing data-driven reporting, and engineering digital platforms for portfolio monitoring of 100+ climate initiatives. Expert in streamlining operational processes, ensuring audit readiness through consistent documentation, and coordinating multi-stakeholder workstreams. Seeking to leverage data analytics (Python, SQL) and technical project management expertise to drive efficiency in the GGGI.

CORE COMPETENCIES

- **Portfolio Monitoring & Reporting:** Experienced in tracking complex project portfolios (100+ initiatives), maintaining data integrity, and producing consistent reporting for internal and external stakeholders.
- **Operational Systems & KM Engineering:** Specialized in SharePoint Architecture and Drupal CMS; experienced in designing and managing automated workflow-approval systems and digital platforms for institutional documentation and records governance
- **Data Analysis & Reporting:** Proficient in translating complex climate project data into actionable insights for senior leadership through dashboards and high-impact reports.
- **Audit Readiness & Compliance:** Strong capability in maintaining meticulous electronic records and ensuring document provenance, supporting organizational adherence to institutional and donor standards.
- **Stakeholder Coordination:** Proven ability to facilitate collaboration between regional teams, implementing entities, and global leadership to manage competing workstreams under tight deadlines.
