CAREER SUMMARY

Knowledge Management and Programme Operations professional with 5+ years of combined public sector and international development experience, and a growing, hands-on technical base in AI and data science. Engineered a centralized SharePoint tracking system used by Programme Managers to monitor a global portfolio of 100+ climate and hydromet projects at the World Meteorological Organization, and co-led an institutional documentation migration built around a metadata taxonomy designed for long-term retrieval. Holds certifications in AI Fundamentals and Cognitive Project Management in AI (CPMAI)[™], is completing an Advanced Professional Qualification in Data Science and Data Engineering Camp Scholar, and has applied Python, SQL, Power BI, and Tableau in analytical and knowledge-product work. Experienced translating technical and field-level detail for non-technical and donor audiences across WMO, UNHCR, and national government programmes. Seeking to bring systems-building, AI-curious execution, and cross-institutional coordination to GGGI.

CORE COMPETENCIES

- **AI-Enabled Knowledge Practice:** AI Fundamentals and CPMAI[™] certified. Hands-on, cross-format AI practitioner — GitHub Copilot and Cursor for coding, Claude and ChatGPT for research and drafting, Midjourney and Canva/Adobe AI tools for visual production, Gamma and Notion AI for knowledge products. Independently designed, coded, and maintains a personal data-driven [portfolio website](#).
- **Operational Systems Engineering:** Co-designed and built the centralized SharePoint tracking system used by WMO Programme Managers to monitor a global portfolio of 100+ climate and hydromet projects, working directly with the KIM Officer and programme managers to shape the system to their monitoring needs.
- **Knowledge Repository Governance:** Led migration of 2,500+ institutional documents to a new CMS platform; established metadata taxonomies and post-migration governance frameworks ensuring compliance with UN records management standards.
- **Data Analysis & Quality Assurance:** Working knowledge of Python (Pandas, NumPy), SQL, Power BI, and Tableau; produced analytical reports and knowledge products for 5 Communities of Practice at WMO and for national stakeholders at the Local Government Academy.
- **Technical–Non-Technical Translation:** Served as the operational link between 15+ UNHCR field operations and the global communications team, converting field-level detail into material for donor and member-state audiences.
- **Capacity Building & Communication:** Designed and delivered training sessions for 300+ staff worldwide; produced knowledge and advocacy materials for global and multi-country audiences.

PROFESSIONAL EXPERIENCE

Independent Consultant – Communications & Programme Management

Global Technical Consultancy - Multiple International Development Clients (Remote)

February 2025 – present

- Designed and managed end-to-end digital workflows to track project deliverables and donor reporting requirements for international development clients.
- Engineered automated workflow systems and structured content management frameworks to enhance cross-functional synchronization for international development clients.

WORLD METEOROLOGICAL ORGANIZATION (WMO)

Knowledge and Information Management Support Officer (P1)

Geneva, Switzerland

November 2023 – October 2024

- Engineered the centralized SharePoint tracking system used by Programme Managers to monitor a global portfolio of 100+ international climate and hydromet projects; collaborated directly with Programme Managers to design a system suited to their monitoring and reporting needs.
- Co-directed the migration of the Secretariat's intranet to a new platform, consolidating 2,500+ institutional documents; established metadata taxonomies and post-migration governance frameworks ensuring compliance with UN records management standards.
- Contributed to the implementation of a new workflow-approval and records management system, coordinating the secure transition of institutional documentation from five legacy platforms.
- Produced analytical reports and knowledge products for 5 Communities of Practice, translating complex climate and hydromet content into accessible material for global stakeholders.
- Designed and delivered 2 capacity-building sessions for 300+ staff worldwide on knowledge management and digital workflow adoption.

Knowledge and Information Management Intern

Geneva, Switzerland

May 2023 – November 2023

- Supported technical migration of institutional documents during the WMO intranet redesign, handling categorization and quality checks for accurate preservation of digital assets.
- Produced analytics and reports on Community-of-Practice activity, increasing participation by 20% across knowledge-sharing networks.

UNITED NATIONS HIGH COMMISSIONER FOR REFUGEES (UNHCR)

Communications and Advocacy Intern

Geneva, Switzerland

September 2022 – May 2023

- Managed the Global Protection Cluster's digital knowledge platform and public website on Drupal, ensuring timely dissemination of protection-related information to humanitarian actors globally.
- Produced multimedia advocacy materials and technical toolkits supporting 20+ international humanitarian campaigns.
- Served as the primary operational link for 15+ global field operations, consolidating field data into centralized reports and ensuring messaging alignment with global campaign objectives.
- Drove a 109.7% increase in LinkedIn organic followers and 652 new Twitter/X followers in 6 months, generating 124,373+ social media engagements.

LOCAL GOVERNMENT ACADEMY (LGA)

Project Officer

Manila, Philippines

November 2019 – September 2020

- Designed and orchestrated 5 national online training programmes for 300+ newly elected officials, ensuring governance continuity during the COVID-19 transition, and managed logistics and monitoring for 20 executive coaching sessions hosting 500+ elected local leaders per session (10,000+ interactions), optimizing digital platforms for mass participation.
- Produced comprehensive analytical reports for national stakeholders based on participation and outcome data, driving institutional programme improvements.

Project Assistant

Manila, Philippines

June 2018 – August 2019

- Spearheaded the "Innovative Solutions Bank," researching and documenting 50+ governance initiatives from raw, uncatalogued data into a structured digital knowledge base. Supported the Human Resource Development Division in delivering three national-level training programmes for local government personnel.

UNIVERSITY OF THE PHILIPPINES DILIMAN

Student Assistantship, NCPAG Library

Quezon City, Philippines

August 2015 – July 2017

- Organized and maintained academic and archival records with strict source integrity, while providing logistical and administrative support for 20+ academic programs and events, improving service delivery and reducing request turnaround time by 10%.

EDUCATION

Advanced Professional Qualification, Data Science

Harvard University, Extension School, USA | 2025 (ongoing)

M.A., EMJMD, European Interdisciplinary Master in African Studies (Climate & Resilience Focus)

University of Porto, Portugal; University of Bayreuth, Germany; University of Bordeaux Montaigne, France | 2020 – 2022

Grade: Mention Très Bien. Fieldwork in Narok and Nairobi, Kenya. Thesis: Urban Risk Management and Building Resilience: Effective Disaster Risk Management Strategies.

B.A., Public Administration

University of the Philippines – Diliman, Quezon City, Philippines | 2013 – 2019

International Academic and Training Experience

- Ferris University & Yokohama National University – Exchange Programme, Japan | 2018
- University of Trento – Economics, Italy | 2017 – 2018
- Southern Taiwan University of Science & Technology – Chinese Language & Taiwan Culture Camp, Taiwan | 2017
- Singapore Management University – Southeast Asian Global Leaders Programme, Singapore & Thailand | 2017
- Universitas Airlangga – Social Sciences, Indonesia | 2016

SKILLS AND CREDENTIALS

- **Technical Tools & Analytics:** Python (Pandas, NumPy), SQL, HTML/CSS · Power BI, Tableau, Google Analytics, Microsoft Excel
- **AI Tools (self-directed use):** GitHub Copilot, Cursor, Claude, ChatGPT, Microsoft Copilot, Midjourney, Canva/Adobe AI, Gamma, Notion AI
- **Systems:** SharePoint Architecture, Drupal CMS
- **Methodologies:** Agile Project Management, Cognitive Project Management in AI (CPMAI)™, MEAL Essentials
- **AI & Data Certifications:** AI Fundamentals · SQL Associate · Associate Data Analyst · Python Data Associate · Data Governance Fundamentals
- **Programme & Sector Certifications:** Operationalizing Article 6.2 of the Paris Agreement (UNFCCC/UNDP) · Google Project Management Professional Certificate · Technical Project Management (TPM) in WASH Emergencies · Grant Seeking Essentials
- **Languages:** English (Native/C2), Filipino (Native/C2), French (Intermediate/B1/B2), Portuguese (Basic/A1)
